

Edidiong Bekeh

Frontend Developer

eddysimbekeh@gmail.com • 07026679603
<https://www.linkedin.com/in/edidiongbekeh/> • Remotely

A Frontend Software Developer with extensive experience in designing and implementing responsive, user-centric web applications using modern framework such as React. My expertise lies in optimizing UI/UX performance, achieving key performance indicators (KPIs) like reduced load times, improved accessibility scores, and increased user engagement through clean, maintainable code and adherence to best practices like DRY (Don't Repeat Yourself) and SOLID principles. With an excellent track record of boosting customer satisfaction metrics by integrating RESTful APIs and enhancing frontend architecture, I am passionate about driving technical excellence and delivering measurable business impact.

Experience History

Dataking and Survey Limited, Remote
Frontend Web Developer

March 2023 — Present

- Designs and implements user-friendly web interfaces, ensuring 100% responsiveness across devices.
- Optimize website performance by 90% through efficient coding, minimizing load times and enhancing user experience.
